

Lubricants and Lubrication Engineering Introductory Awareness Day

Tuesday 24th October 2017, UKLA House, Chesham, Bucks.

An event EXCLUSIVELY for Arkwright Scholars interested in careers in engineering.

Engineers address issues concerning tribology on a daily basis. Overcoming complex problems using effective lubrication is the foundation of many careers in engineering. From chemical engineers to those managing large-scale machining operations, lubrication affects the whole of the industrialised world.

Event Overview

- Learn about the origins of Lubricants including refining and exploration.
- Assess different types of additives and their role in lubrication.
- Explain the different Viscosity & Viscosity Classifications of lubricants.
- Understand Automotive Lubricant Classifications including ACEA and API.
- Learn about lubrication fundamentals including Tribology and wear mechanisms.
- Explain the regulatory landscape impacting upon the sector.

Benefits to You

- Learn about issues of tribology, lubricants and lubrication in engineering.
- Gain practical knowledge of engineering issues from the experts.
- Network with other Scholars
- Visit one of the leading national bodies representing the lubricants sector.

Event Details

Organisers: United Kingdom Lubricants Association

Venue: UKLA House, 13, Chess Business Park, Moor road, Chesham, Bucks. HP5 1SD.

Date: Tuesday 24th October 2017

Time: Meet at 9.45am

Start at 10.00am – end at 3.30pm

Price: £25 for Arkwright Scholars.

- Limited Places – apply early to avoid disappointment!
- Deadline for applications is 22nd September 2017.
