

Lubricants and Lubrication Engineering Introductory Connect Day

Tuesday 25th October 2022, Morris Lubricants, Shrewsbury.

An event EXCLUSIVELY for Arkwright Scholars interested in careers in engineering.

Engineers address issues concerning tribology on a daily basis. Overcoming complex problems using effective lubrication is the foundation of many careers in engineering. From chemical engineers to those managing large-scale machining operations, lubrication affects the whole of the industrialised world.

Event Overview

- Learn about the origins of Lubricants including refining and exploration.
- Assess different types of additives and their role in lubrication.
- Explain the different Viscosity & Viscosity Classifications of lubricants.
- Understand Automotive Lubricant Classifications including ACEA and API.
- Learn about lubrication fundamentals including Tribology and wear mechanisms.
- Explain the regulatory landscape impacting upon the sector.

Benefits to You

- Learn about issues of tribology, lubricants and lubrication in engineering.
- Gain practical knowledge of engineering issues from the experts.
- Network with other Scholars
- Visit one of the leading lubricant blenders in the country.

Event Details

Organisers: United Kingdom Lubricants Association

Venue: Morris Lubricants, 38-41 Caste Foregate, Shrewsbury SY1 2EL.

Date: Tuesday 25th October 2022.

Time: Meet at 9.45am

Start at 10.00am – end at 3.30pm

- Limited Places – apply early to avoid disappointment!
- Deadline for applications is Tuesday 27th September 2022.
